LETTER TO UNITHOLDERS

LETTER TO ALL UNIT HOLDERS OF quant Mutual Fund

Dear Unit holder,

Sub: Change in key features of quant Multi Asset Fund of quant Mutual Fund

Unit holders are requested to note that the approval of Trustees of quant Mutual Fund has been granted to add Silver ETFs in quant Multi Asset Fund as India is the world's biggest consumer of silver. Investment demand in India has been boosting imports of silver to the extent that India is seen to be supporting global prices for the metal. In the first seven months of 2022, silver imports surged to 5,100 tonnes from just 110 tonnes during the same period last year, according to the Ministry of Commerce and Industry.

India's silver imports have increased exponentially since the beginning of 2022. With silver steadily catching up with gold, both in terms of price and demand, investors are anticipating that silver which was always regarded as a poor man's gold will beat gold in the coming years.

Silver is often considered as an industrial metal too. The industrial demand for silver is rising, especially on the green energy front. Silver demand has also increased on the back of higher industrial demand fueled by government incentives for electronics, electric vehicles, and solar panel manufacturers. These industries are consuming increasingly higher quantities of silver. Hence growth in the global solar panel industry, electric vehicles, as well as new sources of demand for sensors used in IoT (Internet of Things) is providing a boost to silver demand. Because it is the best thermal and electrical conductor of all the metals, silver is ideal for electrical applications. Its antimicrobial, non-toxic qualities make it useful in medicine and consumer products. Its high luster and reflectivity make it perfect for jewelry, silverware, and mirrors. Its malleability, which allows it to be flattened into sheets, and ductility, which allows it to be drawn into thin, flexible wire, make it the best choice for numerous industrial applications. Its photosensitivity has given it a place in film photography.

We would like to further mention few reasons why silver makes an appealing addition to an investor's portfolio:-

- Silver has now come on par with gold. Silver has become as reliable as gold, as a store of value. During periods of market turmoil and ambivalence, most people lose confidence and tend to buy gold and silver that will protect their investment in the long run.
- Scarcity of precious metals in the market. Even though gold and silver are regularly mined globally, there is a scarcity of these metals. For this reason, both the metals continue to be regarded as precious metals since ages. With technological advancement, silver also finds newer applications in various other industries apart from jewelry. This will create a good demand for silver in the market.
- Silver is also used in various industries. As against the popular misconception that silver is used only for ornaments, it is actually used across different industries. Silver is used in various components of automobiles due to its unique properties and are finding favor in many other industrial applications too. In this regard, the demand for this metal from different industries all over the world is unfathomable.
- Silver is easily tradable. As an investment, silver is a highly liquid investment given the rising demand for it globally.
- Low correlation to stock markets. Markets can become volatile every now and then due to various global factors. During such times, investors move their money to safe haven assets such as gold and silver, both of which are deemed safe due to its perceived 'intrinsic value'.

Supported by a sanguine outlook and strong fundamentals, silver has emerged as an important investment option that should find a rightful place in an investor's portfolio.

Thus, the following scheme will be undergoing changes in the key features of the Scheme, which will tantamount to change in the fundamental attributes in line with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996 ("MF Regulations"). These proposed changes shall be carried out by implementing change in the fundamental attributes of the Scheme.
