This Product is suitable for investors who are seeking	Scheme Riskometer	Benchmark Riskometer
• To generate income through investing in government securities across maturity		
*Investors should consult their financial advisers if in doubt about whether the product is suitable for them

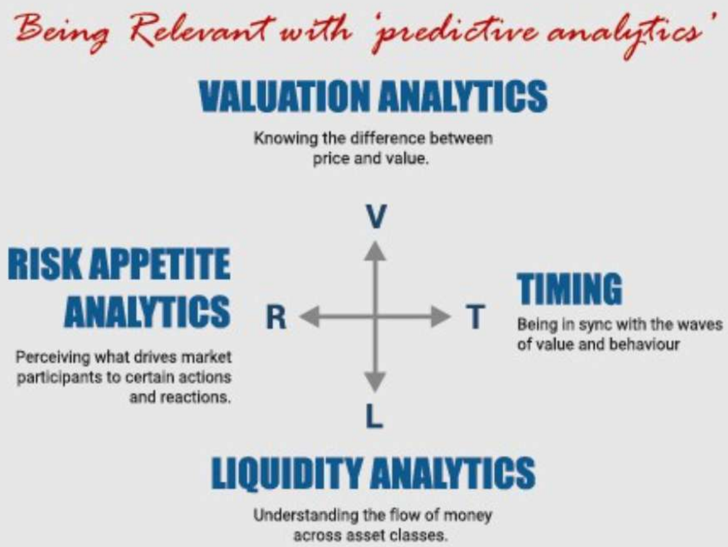
Investment Approach

- Minimum 80% will consist of instruments, issued and guaranteed by Central/State Governments
- Take duration calls basis the underlying interest rate view and will actively manage interest rate risk
- Aims to play across the interest rate curve by investing in government securities across different maturities to generate capital gains
- Aims to identify government securities across maturities, which offers an optimal blend of duration and reasonable yield

Reasons to Buy

- Ideal for risk-averse investors with a short to medium-term investment horizon
- Gilt funds are a great choice to add more diversification and stability, especially in an equity heavy portfolio
- Zero credit risk as the government generally fulfills its obligations unlike corporate bonds
- Investments are government-backed, where chances of any significant capital loss are close to none

VLRT Framework| Adaptive Money Management



The core engine that drives us and sets us apart is a robust and differentiated investment framework that enables us to see beyond the horizon and stay relevant. Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform **A diverse set of variables and participants are continuously interacting with each other in myriad ways.**

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought **we have found consistent success by studying markets along four dimensions: Valuation, Liquidity, Risk Appetite, and Time [VLRT].**
