Short Term Defensive Consideration:

Subject SEBI (MF) Regulations, 2026 the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. As per Paragraph 3.11.1 of SEBI Master Circular for Mutual Funds dated March 20, 2026 as may be amended from time to time, such changes

	in the investment pattern will be for short term and for defensive consideration only. In the event of change in the asset allocation, the fund manager will carry out portfolio rebalancing within 30 calendar days or such other timeline as may be prescribed by SEBI from time to time. Portfolio Rebalancing Portfolio Rebalancing (in case of passive breaches): In the event of change in the asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager is required to carry out portfolio rebalancing within 30 Business Days. In case the portfolio is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to 60 Business Days from the date of completion of mandated rebalancing period. In case the portfolio of the investment strategy is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall follow the requirements specified under the aforesaid circular including reporting the deviation to Trustees at each stage.
Investment Strategy	The scheme will focus on PSU / subsidiaries of PSU companies which may offer stability, dividends, and the backing of the Government. The scheme may also invest in quasi-PSUs / part of PSU index or defined by management control or ability to appoint key managerial personnel and not necessarily by equity stake of 51% (but minimum PSU/ Central govt / state govt stake of 35% and highest among others is required). The scheme will look to diversify across companies in the Energy, Defense, Banking space as well as any other sector within the realm of PSU basket. The scheme will be actively managed using VLRT Framework and may cover several factors such as the absolute as well as relative valuation (with PSU peers / Private peers), liquidity situation (GOI holding, divestment plans etc.), risk appetite of investors towards PSU stocks, corporate governance scorecard, fixed income(dividend)/capital appreciation opportunities, GOI policies, sectoral capex spends and many more factors to capitalize on emerging opportunities and eliminate potential risks. Key Investment thesis: Critical positioning & contribution of PSUs in advancing India towards 3rd largest economy in the world Public Sector Units (PSUs) have played a significant role in the advancement of the Indian economy and its ascent to becoming one of the world's largest economies. While India aims to become the third-largest economy in the world, PSUs continue to be key drivers of economic growth and development. While PSUs have been key contributors to India's economic growth, it's important to note that their efficiency and performance can vary widely. Reform and modernization efforts are ongoing to enhance their competitiveness, operational efficiency, and accountability. Over the next five to ten years, as reforms continue to evolve, PSUs are poised to become stronger and more dynamic players across various sectors of the economy for the coming decades. Despite global trends favouring privatization, public enterprises continue to play a significant role in economic activities to varying extents. This fund seeks to invest in PSU stocks and leverage the potential value unlocked through disinvestment or divestment.

	The AMC may, from time to time, review and modify the Scheme's investment strategy if such changes are considered to be in the best interests of the unit holders and if market conditions warrant it. Investments in securities and instruments not specifically mentioned earlier may also be made, provided they are permitted by SEBI/RBI and approved by the Trustee.
